India's Climate Action: Policy, Practice, and Performance

- India's climate response is shaped by the **National Action Plan on Climate Change (NAPCC)**, made operational through **State Action Plans on Climate Change (SAPCCs)**.
- States now have **over a decade of experience**, offering rich learnings on adaptation, mitigation, and disaster management.
- The success of national climate ambitions is fundamentally linked to the **effectiveness of SAPCCs**.
- This Conclave creates a **common space** for states, institutions, and partners to reflect, align, and move forward.

Advancing Subnational Climate Action: Learnings from Karnataka

- Experience since 2021 shows localization of SAPCCs is **challenging yet essential**.
- Climate action demands a **whole-of-government** and **whole-of-society** approach.
- Clear institutional roles, real-time monitoring, and multi-stakeholder engagement are **non-negotiable**.
- These learnings are relevant not only for Karnataka but for all states represented today.

From Policy to Performance: Digital Monitoring for Climate Action

- EMPRI, CEE, and HSS developed the **KSAPCC Monitoring Dashboard**, launched on 21 Nov 2024 by the Hon'ble Environment Minister, Karnataka.
- Tracks departmental KPIs, enabling **data-driven, evidence-based climate governance**.
- Built through insights from **16 department workshops** and feedback loops.
- Functions as a **G2G e-governance platform**, enabling seamless inter-departmental coordinatio
- Offers a **scalable model** for other states to strengthen monitoring and transparency.

The National Climate Conclave: Building on Momentum

- Brings states together for experience sharing, strategic knowledge exchange, and best practices.
- Reflects India's shift toward localisation, monitoring, and data-driven climate action.
- Emphasizes inter-departmental coordination, participatory governance, and multistakeholder engagement.
- Provides a platform to:
  - Assess performance; Identify gaps; Align with national goals; Explore global partnerships

What We Aim to Achieve Together?

- A unified understanding of SAPCC implementation across states.
- Strengthened climate monitoring and evaluation systems.
- Clear insights for enhancing subnational climate governance.
- Inputs for future SAPCC revisions and departmental coordination.
- Deeper partnerships with national and international institutions.
- A roadmap for scaling innovations like the KSAPCC dashboard.

Advancing Climate Action Through Partnership & Purpose

Thank you for your leadership, collaboration, and commitment.
